

PARENT NOTICE

Ref.: S10-2026/27

Dear Parents/Guardians,

SCHOOL BULLETIN (SEPTEMBER)

I. ANNOUNCEMENTS

1. Arrangements for Classes Under Tropical Cyclone Warning Signals and Persistent Heavy Rain (please refer to the E-Student Handbook)

According to Education Bureau guidelines, schools will suspend classes for the whole day when the Pre-No. 8 Special Announcement, or the Red or Black Rainstorm Warning Signal, is issued. To protect students' safety, please note the following arrangements for returning to school during adverse weather:

- 1.1 If Hong Kong may be affected by a tropical cyclone or persistent heavy rain before classes begin, the Education Bureau may, depending on circumstances, announce on radio and television in the morning whether morning schools and whole-day schools will suspend classes. Parents will be informed whether the school is closed.
- 1.2 If the Hong Kong Observatory issues a Red or Black Rainstorm Warning between 5:30am and 8:00am, the Education Bureau may announce suspension of classes for all-day schools. Students who have not left home should stay at home. If a student encounters heavy rain, dangerous road, slope or traffic conditions on the way to school, parents should decide whether the student should continue to school. The school will remain open and implement contingency measures. Students already travelling to school should continue to school and stay there until it is safe to go home. Parents do not need to rush to school to collect their children.
- 1.3 If a Red or Black Rainstorm Warning Signal is issued after classes have started (after 8:00am), the school will continue lessons until normal dismissal. To ensure students leave school safely and in an orderly manner, parents should discuss in advance which dismissal arrangement should apply during adverse weather.
- 1.4 If tests or examinations are affected by a tropical cyclone or persistent heavy rain and classes are suspended, they will be postponed or cancelled. Students should check the latest announcement on the school website.
- 1.5 In special circumstances, the Education Bureau may announce suspension of classes for schools in one or more districts. Students living in those districts should not return to school even if this school is outside the affected area. Parents may decide whether their children should return to school after considering local weather and traffic conditions.
- 1.6 If severe weather, road, slope or traffic conditions make it impossible for a student to return to school or cause lateness, the student will not be penalised in these special circumstances.
- 1.7 Parents of Secondary 1 students have already replied through the eClass Parent App about arrangements for attending school during tropical cyclones and persistent heavy rain.

2. Matters Relating to the "Grant for School-based After-school Learning and Support Programmes" (please refer to the E-Student Handbook)

The school has always attached importance to students' whole-person development. To support students with financial needs in taking part in diversified after-school learning activities and to help the school make effective use of the above grant, the school must first understand and collect information on students' family financial circumstances. Parents are requested to reply through the eClass Parent App.

2.1 Eligibility

- 2.1.1 Students receiving Comprehensive Social Security Assistance (CSSA) or full assistance under the School Textbook Assistance Scheme.
- 2.1.2 Students who do not receive the above assistance but are genuinely in financial need may apply. The school will consider applications according to each student's actual circumstances.

2.2 Subsidy details

- 2.2.1 The subsidy supports students in learning activities outside the regular curriculum organised by the school.
- 2.2.2 According to students' different learning and developmental needs, the school may provide full or partial subsidies.

3. Special Notice on Student Insurance

To provide more appropriate protection for all students when participating in school-organised activities, the school has arranged the "Integrated School Insurance Scheme" and the "Student Group Personal Accident Insurance Scheme" for all students this year. Please refer to the following information for details:

3.1 "Integrated School Insurance Scheme"

If a student suffers loss or injury while taking part in a school activity, parents are entitled to make a claim against the school through the proper legal procedures. Whether compensation is payable, and the amount, will be determined by the court.

3.1.1 In some cases, a student may have to go through lengthy and complicated legal proceedings before any negligence by the school can be established. The Integrated School Insurance Scheme therefore includes an additional group personal accident benefit. Regardless of whether the school has been negligent, if a student dies or suffers permanent disability because of an accident during a school activity, a lump-sum special benefit may be paid according to the degree of injury, subject to a maximum of HK\$100,000 per student. This benefit is in addition to any compensation available under the law. Parents should not regard this as comprehensive personal insurance and should arrange suitable personal insurance for their children as necessary.

3.1.2 For further enquiries, please contact the Education Bureau's Kwun Tong District School Development Officer.

3.2 "Student Group Personal Accident Insurance Scheme"

In addition to the above integrated insurance, the school has also purchased personal accident insurance for students. Details are as follows:

3.2.1 Period of insurance: from 01/09/2026 (Tuesday) to 31/08/2027 (Tuesday), both dates inclusive.

3.2.2 Coverage includes:

3.2.2.1 On school premises and during school opening hours;

3.2.2.2 School or educational activities organised or arranged by the school, including activities or competitions in which students are arranged by the school to participate and which are organised by other groups;

3.2.2.3 While travelling in vehicles operated or arranged by the school;

3.2.2.4 Food poisoning caused by food or drinks provided or arranged by the school;

3.2.2.5 Poisoning caused by unidentified gas on school premises or at school activity venues;

3.2.2.6 Direct travel from the student's residence to school, or to take part in a school-organised or school-arranged school/educational activity;

3.2.2.7 Direct travel from school or a school activity venue back to the student's residence (within two hours after the end of a whole-day class or activity);

3.2.2.8 Coverage territory: within the Hong Kong Special Administrative Region;

3.2.2.9 Maximum accidental medical expenses: HK\$10,000 per incident;

3.2.2.10 Limits per insured item:

3.2.2.10.1 Chinese medicine and bone-setting treatment: HK\$200 per day; maximum HK\$1,000 per accident.

3.2.2.10.2 Physiotherapy treatment: HK\$200 per day; maximum HK\$2,000 per accident.

3.2.3 Parents who wish to obtain comprehensive personal insurance for their children may consider taking out other insurance on their own. For enquiries about the above information, please call 3752 4500 and contact the school office.

3.2.4 If parents wish to make a claim under the school's insurance, they must notify the school within 7 working days after the student is injured so that follow-up action can be taken promptly. Otherwise, the insurer may delay or refuse to handle the claim.

4. Online Renewal of the 2026/2027 MTR Student Travel Scheme

4.1 Eligible students may renew the "Student Status" on their Personalised Octopus online and submit the application online at <https://studentapplication.mtr.com.hk/ch>. After the student's identity is verified by the school through the system, the student does not need to return to school for stamping. Students may also access the online application platform through MTR Mobile.

4.2 After paying the fee through the Octopus App and renewing the "Student Status", successful applicants will receive a confirmation email titled "Notification - Renewal of Student Status on Personalised Octopus". Students may follow the instructions to complete the remaining steps. Online tutorial: <https://www.youtube.com/watch?v=RdwoHFygu6U>

Care Instructions for School Uniforms:

1. Do not use bleach (including colour bleach) or detergent containing bleach on any school uniform.
2. Sweaters should be hand-washed in cold water (shampoo may be added), laid flat to dry, and not hung, as hanging may cause deformation.
3. Except for shirts, school uniform items should not be tumble-dried, as this may cause shrinkage.
4. Turn garments inside out when washing and drying whenever possible to help preserve their colour.
5. Wash newly purchased dark-coloured garments separately from light-coloured garments. Do not soak for a long time or leave them in the washing machine, to avoid colour bleeding.

Online ordering is now available at www.fcsl.com.hk/online-store-order/. Parents should register as members and enter the school verification code FE17TH. (Online orders are available for SF Express freight collect or shop collection only.)
