

PARENT NOTICE

Ref. No.: S5-2026/27

Dear Parents/Guardians,

Implementation of the “Academic Enhancement Programme”

Thank you for your continued trust in and support of the school. At the start of the new school year, the school hopes to lay a stronger foundation for your child's academic development and personal growth. We will therefore implement the “Academic Enhancement Programme”. Details are as follows:

Shared Goal: To be fully prepared for further studies in the future

According to local university admission requirements, students need to obtain “332A” in the core subjects of the Hong Kong Diploma of Secondary Education Examination (i.e. Level 3 in Chinese Language and English Language, Level 2 in Mathematics, and an Attained result in Citizenship and Social Development). To help students improve their academic standards and reach this goal, the school will allocate resources to launch the “Academic Enhancement Programme”, providing after-school support for students who need additional help in the core subjects.

Stages of the “Academic Enhancement Programme”

The programme is divided into four stages. Through the specific measures shown below, students will be supported step by step to improve their academic performance, develop good study habits and build a positive and conscientious learning attitude.

Stage	Target Students	Content	Follow-up
Stage 1 (September to October) Five weeks in total	Based on the previous school year examination results, the school will identify students with weaker results in the core subjects (Chinese Language, English Language and Mathematics).	Subject teachers will provide exercises to help students consolidate basic subject knowledge. There will be stage tests every week to review students' progress and performance. The tests will focus on targeted practice so that students can gradually build and consolidate their learning foundations. Students who make continuous progress in the weekly tests may be regarded as having made progress in that stage. The school will consider exempting such students from the after-school classes in the next stage based on their test performance.	Students will continue to join the programme until before the First Term Uniform Test.
Stage 2 (November to December) Five weeks in total	Based on the First Term Uniform Test results, the school will identify students with weaker results in the core subjects (Chinese Language, English Language and Mathematics).		Students will continue to join the programme until before the First Term Examination.
Stage 3 (February to April) Four weeks in total	Based on the First Term Examination results, the school will identify students with weaker results in the core subjects (Chinese Language, English Language and Mathematics).		Students will continue to join the programme until before the Second Term Uniform Test.
Stage 4 (April to June) Five weeks in total	Based on the Second Term Uniform Test results, the school will identify students with weaker results in the core subjects (Chinese Language, English Language and Mathematics).		Students will continue to join the programme until before the Second Term Examination.

St. Joseph's Anglo-Chinese School

Fax: 2325-2358

The school has made careful administrative arrangements and coordinated other after-school activities so that students taking part in the programme can focus on it. We firmly believe that students' success requires not only the school's careful planning, but also parents' understanding and cooperation.

If your child is required to join this programme, please give him/her more encouragement and support your child with a positive attitude. With home and school working together, we can jointly support your child's growth.

To:

Parents of all Forms

Principal

St. Joseph's Anglo-Chinese School

3 September 2026

Yours faithfully,

"God created human beings in his own image; in the image of God he created them; male and female he created them. God blessed them."

(Genesis 1:27)
