In the past three years, our students experienced endless interruption to their learning due to the epidemic. Despite this, they rose above the circumstances and managed to achieve remarkable success in the HKDSE. We are proud to witness a record high in the number of students being admitted to tertiary institutions (university degrees and associate degrees) this year. 「校長的話」 Principal's Message

潘永强校長

訂立目標 全力以赴
Setting goals and making every effort

記得麥神父在剛過去的散學禮上提到：人生是不停的分別、再重逢；短暫的結束，不是永遠的結束，因為我們知道短暫的結束過後，會迎來新的開始。在與各位學生短暫的再見後，我們又再在開學禮上聚首，迎接新的學年。去年我在開學禮上跟同學們訂立了四個目標：自信、勤奮、努力、積極。很感恩，在過去的一年，我見證著各位學生的成長，在不同的方面都取得了成就。今年，我希望學生能為自己訂立目標，在不同的範疇上繼續努力，全力以赴，追逐自己的夢想，做個品學俱佳的「ST. JOE」仔。

Father Mak mentioned in the school closing ceremony that life is a journey of constant farewells and reunions; every brief departure welcomes a new beginning. Having said a short goodbye, we met each other again at the opening ceremony, welcoming the new school year. Last year, I set four goals with students at the opening ceremony: to be self-confident, diligent, perseverant, and positive. I am very grateful to witness the growth of all students who have made achievements in different areas. This year, I hope that students can set goals for themselves, striving to work hard in different fields and trying their best to pursue their dreams. I hope all Josephians will achieve excellence both in conduct and learning.

教師團隊 Professional Teaching Staff

本校教師大部份都具有10年以上的教學經驗。我們的老師專業知識豐富，以實踐天主教教育五大核心價值(真理、義德、生命、愛德、家庭)為己任。學校重視提升老師教學質素，近年，老師們經常出席校內外專業交流活動及分享所學，並學以致用，務求以有效方法照顧不同能力的學生。

Most of our teachers have more than 10 years of teaching experiences. Our teachers are professional. They actively hold on to the five core values of Catholic education (Truth, Justice, Love, Life and Family). Our school attaches great importance to the improvement of teaching quality, which is shown in teacher's active participation in professional sharing activities in and outside of school in recent years. They are always ready to share what they have learnt and endeavor to adopt effective strategies that cater for diverse learners.

教學語言安排 Medium of Instruction

培養學生掌握兩文三語，中英兼擅。於任何時間及地方，英文科及普通話科老師均分別以英語及普通話與學生溝通。微調教學語言安排下，初中部份班別以英文為大部份科目的教學語言。另外，初中所有班別的綜合科學科及綜合人文學科均以英語為教學語言。

We nurture students to be biliteral and trilingual. Anytime, anywhere, English and Putonghua teachers communicate with students in English or Putonghua. With fine-tuned MOI arrangements, English is the medium of instruction for most subjects in some classes in junior forms whereas Integrated Science and Integrated Humanities are taught in English in all classes.

學習和教學策略 Learning & Teaching Strategies

由各科主任領導，配合課程改革方向制定教學策略，訓練學生獨立思考、電子學習技能、自主學習能力和多元智能。老師們通過同儕觀課交流教學心得，達致範式轉移及因材施教。學生可在英語閣練習會話及借閱英文書籍。學校鼓勵學生訂立學習目標，組織學習小組分享心得。

近年各學科致力在高中推行「拔尖及保底政策」及以「成績預警計劃」加強學生對其個人強項及弱項的了解，藉以提升學生在公開試之表現。初中則推行「小班教學政策」，並實踐各科「適異教學」政策，藉此鞏固初中學生學習根基。

We devote efforts to developing students' independent thinking, e-learning skill, learning autonomy and multi-intelligence. Panel chairpersons devise teaching strategies to complement the curriculum reform. Peer class observation enables teachers to share expertise that maximizes students' talents. Students have extra oral practices with the native-speaking English teachers and borrow English books and enjoy English films in the English Corner. We encourage students to set goals for their studies and form study groups. In recent years, all subjects endeavoured to enhance senior formers' performance in public examinations via enhancement and remedial programs. The Early Warning System provides senior students with a record of their performance and helps draw their attention to their strengths and weaknesses. For junior formers, small-class teaching is practiced and differentiated teaching strategies are adopted so as to help students strengthen their foundation in core subjects.

電子學習及創新科技發展 E-learning and Innovative Technology Development

學校一直致力發展資訊科技教育。為達到「高展示，高參與」的目標，課室配置了4K高清護眼屏幕，運用投屏技術提升課堂互動性；初中同學均參與「BYOD自攜裝置電子學習計劃」，學校利用光纖連接核心網絡，確保教學活動的流暢性。將於本學年落成的「Smart Space」，期望透過更專業的配置，培育學生成為未來創新科技發展的人才。

學校本年度獲選為「中大賽馬會智為未來計劃」全港十間領袖學校之一，將與大學團隊協作設計人工智能課程，將新科技融入課堂，並推廣至全港學校。本校65周年的校慶主題為「銘感主恩典，創科展明天」，期望能傳承本校優良傳統，積極培養新一代數碼公民。

The school has been committed to the development of IT in education. To achieve the target of "High Display, High Participation", the classrooms are equipped with 4K HD eye protection screens. The school has connected to the core network with optical fibre to ensure smooth teaching. The "Smart Space" will be open this academic year. With the use of the advanced configuration, we hope we can nurture students to be the talents of future innovation and technology development.

The school was selected as one of the ten leading schools in the "CUHK Jockey Club AI for the Future Project". We will cooperate with the university team to design an AI curriculum and incorporate the new technology into the lessons. The curriculum will also be promoted to all the schools in Hong Kong. The theme of the school's 65th anniversary is "Innovation and Technology – Stride and Thrive in God's Grace". We hope we can carry forward the fine traditions of our school and actively cultivate a new generation of digital citizens.
